Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 67-75, drawn to image correction.

Group II, claim(s) 76-105, 107-118, 121, 122, 123, 126, 127 and 128 drawn to density calculation.

Claim 106 is dependent to a non-existing claim 37.

Claims 119-120, 123-125, 129-131 depend to a non-existing claim 10.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: group 1 requires image correction which is not required by group 2.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
